Profile Summary

- Passionate web development enthusiast with strong proficiency in HTML, CSS, JavaScript, **Node.js**, **Express,** and MongoDB.

- Built **full-stack projects** including a **social media platform**, a mini clone of chess.com, and various interactive games

- Expertise in creating **responsive**, **modern,** and animated websites with a focus on user experience.

- Committed to **continuous learning**, **improving backend skills**, and deepening knowledge in system design and **advanced web technologies**.

- Aspiring to contribute to an innovative organization, leveraging my skills to deliver **exceptional web solutions** and user experiences.

Work Experience

Web Developer *January 2021 – Present*

Responsibilities:
- Developed front-end components using HTML, CSS, and JavaScript, ensuring responsive and interactive user interfaces.

- Implemented backend functionalities with Node.js and Express, managing databases with MongoDB.

- Engaged in continuous learning to stay updated with the latest web development trends and technologies.

- Utilized version control systems (Git, GitHub) to manage my projects.

Achievements:
- Successfully developed a full-stack social media platform, with features like image/post uploading, liking, commenting, profile viewing etc.

- Built a portfolio of animated websites that demonstrated advanced CSS and JavaScript techniques, leading to increased personal project visibility.

Interests

- Web Development

- Modern Web Design

- Learning New Tech.

- Building Interactive User Interfaces

Projects

- **SNAPIFY (Full-Stack Social Media Platform)**

  - Tools Used: JavaScript, CSS, Node.js, Express, MongoDB, Git
